

Why Gulistan Carpet?

*Craftsmanship ♦ Unique Designs ♦ Attention to detail ♦ Fine Finishes
Beauty ♦ Comfort ♦ Value ♦ Safety ♦ Warmth*

Gulistan carpets are economical and remain an affordable luxury.

Gulistan carpet styles, colors and textures are the perfect foundation for home décor. They blend well with furniture, accessories and other flooring products. Whether your style is country, traditional, modern, casual or formal, you can always find a Gulistan carpet that will complement your home and give you years of beauty and performance.

Carpet remains the most popular flooring product with more than six out of ten consumers choosing carpet to decorate their homes.

Carpet *Advantages* in Your Home

- ♦ Carpet is inviting to look at, comfortable to walk on and provides a cushioning effect (soft support under foot).
- ♦ Carpet can be installed over a variety of substrates and hides many sub-floor irregularities not permitted with hard-surface coverings.
- ♦ Carpet provides a Healthier Home and Safer Environment:
 - Carpet provides thermal insulation; carpeted homes stay cooler in summer and warmer in winter.
 - Carpet traps allergens for easy vacuuming and better indoor air quality.
 - Gulistan carpets are certified Green Label +Plus [Carpet & Rug Institute] for low VOC emissions.
 - Important to families with young children and/or older loved ones, carpeted homes provide a safer environment against falls and injuries, and when accidents do happen, it is a cushion to lessen the severity. Carpet provides a cushion to lessen dangerous breakage when household items (such as glass) drop to the floor.
 - Carpet provides acoustic insulation, which reduces harsh noises and quiets the room.
- ♦ Carpet is easy-to-care-for:
 - Gulistan carpets stand up to everyday spills and stains and dirt, even in households with active families.
 - Easier clean-ups – The Stainmaster® LotusFX™ Fiber Shield reduces soil accumulation and its ability to stick to the fiber and prevents most food and beverage spills from becoming stains.
- ♦ When it's time to update the design theme or colors in your home, carpet can be removed easily (and recycled) and replaced with a new exciting pattern or color.
- ♦ An investment in a Gulistan carpet is an investment in flooring that keeps its beauty and lasts for years.
 - Gulistan carpets are engineered with the strongest, most resilient fibers and the best science from Stainmaster® for carpets that look better longer - tested and proven to stay 30 percent cleaner and last 50 percent longer than other carpets.

Gulistan Carpet is committed to manufacturing processes that lower the impact on the environment
